Treasures of World Song

Treasures of World Song traces the surprising and exotic musical synergies found in some of the world's great oral traditions. A diverse and fascinating program of folk and popular songs from North & South America, France, England, Spain, Ireland, Greece, Turkey, Morocco and the Balkans, will tell a rich musical story and promote the cause of cross-cultural appreciation and understanding. Gerard Edery interprets this repertoire as a living legacy, combining stylistic authority and immense creative and re-creative flair. From joyous hymns of celebration to poignant ballads of love, from flamenco-inspired pieces to holy works of praise, Gerard's instrumental virtuosity, rich baritone and masterful arrangements will create an unforgettable musical experience.
